LOGBOOK

Date:	21-07-2026	
Tuesday	1. What did I complete since the last standup?	• Presented our product backlog to the lecturer using Trello during our Microsoft Teams session. • Explained the backlog and how the team planned to complete the project tasks. • Received feedback that some backlog tasks were too large and needed to be broken down into tasks that could be completed in one day.
	2. What am I planning to complete between now and the next standup?	• Refine the backlog by breaking large tasks into smaller, manageable tasks. • Ensure each task can be completed within one working day. • Prepare the updated backlog for the next presentation.
	3. What are my impediments (or risks or problems)?	• Some backlog tasks were too broad and needed to be refined before they could be assigned.
	4. Reflection	• I learnt that Agile tasks should be small, clear, and achievable within a short period. This makes it easier to track progress and manage the project.

Wednesday	1. What did I complete since the last standup?	• Worked with my team to refine the Trello backlog based on the lecturer's feedback. • Presented the updated backlog to the lecturer. • Received further feedback to organise the backlog according to Agile principles by adding user stories, using colour labels, and assigning tasks to team members.
	2. What am I planning to complete between now and the next standup?	• Rewrite the backlog using user stories. • Add colour labels to improve organisation. • Assign backlog tasks to the appropriate team members.
	3. What are my impediments (or risks or problems)?	• The backlog required major changes to meet the Agile requirements.
	4. Reflection	• I learnt that lecturer feedback is valuable because it helps improve the quality of the project and ensures we follow Agile practices correctly.

Thursday	1. What did I complete since the last standup?	• Updated the Trello backlog by adding user stories and improving the task structure. • Presented the revised backlog to the lecturer, who approved the improvements. • Organised the backlog into separate sprint boards. • Created Sprint 1 with four tasks and assigned work to team members.
	2. What am I planning to complete between now and the next standup?	• Continue organising the remaining sprint boards. • Ensure all sprint tasks are correctly assigned. • Prepare for the next phase of the project.
	3. What are my impediments (or risks or problems)?	• Time management.
	4. Reflection	• I learnt that reviewing other teams' work can provide useful ideas and help us improve our own project.

Date:	24-07-2026	
Friday	1. What did I complete since the last standup?	• Presented the completed Trello boards and sprint planning to the lecturer. • Received feedback that the sprint planning was satisfactory. • Started designing the project prototypes in Figma after the lecturer requested that prototypes be ready for review the following week
	2. What am I planning to complete between now and the next standup?	• Continue designing the project prototypes in Figma. • Work with the team to complete the required screens. • Prepare the prototypes for the next lecturer review.
	3. What are my impediments (or risks or problems)?	• Coordinating the prototype design work with the team while meeting the deadline for the next review.
	4. Reflection	• I learnt that planning and working together as a team makes it easier to complete project milestones on time.
